**Strategic Health Group Partners with Millennium Actuarial Group to
Provide Clients an Integrated Portfolio of Consulting Services**

(BURBANK, CA – November 30, 2011) — [Strategic Health Group](#) announced today that it has entered into a partnership with Millennium Actuarial Group so as to better provide hospitals, health plans and other healthcare-related organizations with a more comprehensive portfolio of integrated consulting services.

Launched in August by veteran industry executives Henry Osowski and Dennis Eder, Strategic Health Group is a strategic and financial advisory firm designed to help healthcare organizations successfully navigate today’s challenging healthcare environment. The Millennium Actuarial Group provides clients with a broad range of actuarial expertise in the healthcare industry. Both organizations’ principals bring many years of experience and accomplishments in a variety of healthcare settings, including health plans, insurance companies, physician groups, hospitals and government.

“Our two organizations share a common commitment to bring seasoned talent to meet client needs,” said Osowski. “Working together we provide complementary skill sets and expertise that result in a comprehensive solution for each client – planning and execution of strategic initiatives combined with demonstrated financial and actuarial acumen.”

Osowski said that healthcare executives today face “daunting challenges” and often need assistance in charting their strategic direction and/or in achieving their business goals. He said that Strategic Health Group was formed to help these executives navigate through these uncharted waters.

Such is also the philosophy behind Millennium, and SHG Managing Director Dennis Eder believes that the complementary skills of these two organizations will greatly benefit each of the organizations they serve. “Because of our blended expertise, we are able to “peer review”

the work of the other party,” said Eder. “That will significantly minimize the chance of error and assure that our clients receive the highest quality of professional services.”

Located in Phoenix, Arizona, Millennium Actuarial Group Founding Member Martin Gibson has more than 30 years of experience as a financial and actuarial consultant. That background is perfectly aligned with Strategic Health Group’s philosophy to bring to each assignment a team of senior executives who can blend road-tested experience with fresh, innovative thinking.

“We are truly excited to be affiliated with Strategic Health Group,” said Gibson. “We have worked with Dennis and Hank very closely for the last six years in different settings and now look forward to assisting the Strategic Health Group team and its clients with innovative solutions to the healthcare industry’s very complex problems.”

Strategic Health Group’s consulting services span a wide area of needs including strategic planning, corporate finance and treasury, marketing communications, actuarial services, human capital, and many others. SHG is also available to help organizations with mergers, acquisitions and divestitures, financial and operational turnarounds, interim executive management, and business planning and budgeting.
